Lake Shore Rail Road.

Passengers from Madison, Watertown, Portage City, &c., who arrive in this city by the morning train from the West on the Milwaukee and Mississippi Road, and take the 9 o'clock A. M. train on the Lake Shore Rail Road, will reach Chicago by 5 P. M., in season to take the early afternoon Express Trains East over the Michigan Southern and Michigan Central Rail Roads. The train from Chicago now arrives here at 1 P. M., giving passengers time to get their dinner, and proceed immediately, aboard to any business they may have and take the afternoon trains West over the Milwaukee and Mississippi, or Milwaukee and Watertown Railways. In a few days the afternoon, as well as the morning train will be 9 o'clock in the forenoon road. The through time from Milwaukee to Chicago is now nine hours. Before the first of June, and as soon as the road is ballasted it will be reduced to three hours. The Express train to arrive from here on Saturday will through to Chicago in 2 hours and 17 minutes.

The time from Chicago to Madison by this route is $5 20 and the running time now nine hours.

THE CHICAGO LICENSE QUESTION.—The Lake Shore Express says of the following in the Chicago Press of Monday morning, at the close of an article in which it is said complaints are made of the petty jealousy said to be the Chicago character:

It would be well to remark that the Milwaukee boat did not delay their time to prepare a reception for the excursionists, that the excursion had to eat with the passengers, and were taken as much by surprise as were their visitors. Perhaps they will not easily believe the officers of the road when it is assured in saying "it is finished." Perhaps they were not glad of the fact. Perhaps—well, it does not become us to make apologies for them though we would gladly do it. It is that they think the road will do a positive injury to their city, they cause, rejoice of course. But unhappily it may not bring them much business in which case the facilities for doing what they have and they ought to regard it as a help to their enterprise at least.

We do not, considering that our friends of the Press & Age that nobody in Milwaukee expected how we did not appreciate just such a showing as the above. The one fact, that not a word of warning was given to the press or the people of our city, is all sufficient to account for the various circumstances, and no labor need be expended in looking up apologies.

FROM OUR NEW YORK CORRESPONDENT.

New York, May 16, 1855.

Summer is upon us suddenly, but dry—for all things we had heavy rains last week, the earth was previously so parched that it but partially suffered for the demands of the growing season. Yet the promise is abundant, here and hereabouts, of everything the earth produces the lateness of the season considering, probably, to the greater certainty in yield of abundance of the future crops in the shape of fruits, vegetables and grain. We must look to the earth, can produce for the stocks are low everywhere, and months multiply daily. From hot prices indeed the appearance is that the grand character of the surplus or suffering population is nearly to be checked by the demand which we make for soldiers, and the increased value thereby given to the labor of the poor man at home, but still there will be large accession to our population from abroad, and the national race of increase will go on here. Moreover, a foreign demand for food will certainly continue throughout the present year and perhaps through long future years, for of the war now in progress the end is not readily to be foreseen.

It is stated in some late European papers that Louis Napoleon is making a great effort to cut off a source of our foreign supply of people, the exodus of Germans, and some of the Know Nothing party would favor large portions of the better class of persons, who otherwise might emigrate, from coming to this country; and doubtless great efforts will be made, both by civil and ecclesiastical dignitaries in those countries, to deter emigration, by magnifying the evils of this one American organization, albeit assuming exhibitory the name of American.

As the South, where slavery is the first interest and first thought, the advent of armies—peaceful armies—of free white men, may be looked upon with distrust and dislike; but how, in the free states and in our boundless territories, there should be any party which, loving freedom as they profess to love it, should seek to exclude those who must be efficient allies in the coming issue with the most already present and perilous—I see a Freedom and Slavery in these United States, this indeed seems incomprehensible.—But I yet hope that calmness will pass, and that a good will to men what it is among its highest titles of honor to be—an asylum for the oppressed, and that, too, without becoming a sanctuary for the infamous.

Dexter Senator of Massachusetts, has been discharged service here by the delivery on three different occasions in this city, twice and once in Brooklyn of his great oration on "the necessity, practicability and glory of the Anti-Slavery Enterprise." On each occasion the houses were overflowed, and the enthusiastic and the eloquent Senator is among men that will if needs must, spring up in a crop of armed men, if the Kansas outrages be persisted in. It is happy that Mass chusetts has now a Sitting Senator to assert and maintain the ancient fame of that liberty-loving Commonwealth, and thus much at least of gratitude we owe to Mr. Pierce and Mr. Douglass,—that, by their atrocious policy in the Nebraska bill, they have banded together in one solid and indomitable phalanx all lovers of freedom, under whatever party name heretofore designated. There is indeed, now but the one great political issue—the limitation or the extension of slavery,—and all must range on one side upon that issue.—This is a great gain and for it we are indebted to Mr. Pierce and his minions.

Our city is quite excited this morning by the return of the *Grape Shot* bark, with the murderer Baker, in pursuit of whom she was sent shortly after the murder of Poole. It is an honorable exploit to the cause of justice, and cannot fail to produce a salutary impression of the vigor of law, far beyond the pursuit to the immediate transaction. If ever the time shall come when no part of the civilized world shall be deemed a safe retreat for great criminals, a very decisive blow will be struck at the *perpetration of crime*; and just because the energetic and successful pursuit and capture of Baker in this instance seems to illustrate such a state of things, is the work important in its results far beyond the particular case in hand.

Our ancient Patriarch is now in her eleventh day, and nothing yet heard for. She will not report, I am sure, her full of Sebastopol, though she may report the capitulation and surrender of the allied armies to the Russians.

MASSACHUSETTS.—The bill to protect the rights and liberties of the people of Massachusetts (known as the Personal Liberty Bill) passed the State Senate by a vote of 22 yeas to 3 nays, on the 15th instant. It had previously passed the House by a very large majority. It practically nullifies the Fugitive Slave Act.

AN INTELLIGENT ENGLISHMAN.—A late number of the London Atlas says, urging that "America is the only refuge of Europe," gravely states that, "in New York the principal hotel is dedicated to the Russian Czar—Nicholas I"

GOVERNORSHIP.—The Cleveland *Leader* says the report that the *Ray Rabbit*, of Ohio, have nominated S. P. Chase for Governor, is false.—They nominated Medill, the Hunker candidate.

Nashotah Mission.

In September of the year 1841, the Rev. Messrs. Adams, Brock and Hobart, clergymen of the Protestant Episcopal Church, entered the then newly organized Territory of Wisconsin for the purpose of establishing an Associate Mission. The village of Prairieville, now Waukesha, was first chosen as their head quarters; but after travelling for some time in various portions of their extensive field, they selected with the approbation of Bishop Kemper, a beautiful position on the banks of the upper Nashotah lake, as the site of their establishment. The primary object was the carrying on of missionary operations in the neighborhood, but young men desirous of preparing for Holy Orders were very soon received as members of the family, and after the first year, the Rev. Dr. Adams devoted himself almost exclusively to Theological Education. Up to the present time, his zeal and talents have—with one year's intermission—been most usefully and indefatigably employed in this noble cause. Rev. Mr. Hobart after two years active labor returned to the East. Rev. Mr. Brock continued his zealous labors as President and Missionary until the beginning of the year 1850, when he relinquished his connection with the Institution, and removed to the Minnesota Territory. He was succeeded in September of the same year by the Rev Dr. Cole, who had been unanimously elected President by the Trustees the June previous.

In 1845, the first alumnus of Nashotah graduated, the Rev. Gustaf Unonius, B. D., Rector of St. Ausgarius Church, Chicago. In 1847, the Legislature granted a Charter, conferring full University powers; but Nashotah is exclusively a Theological Institution. During the same year six graduated, two of whom are the present Rectors of St. John's and St. James' Churches, Milwaukee. In 1848, three more graduated. In 1849, one was ordained. In 1850, one graduated. In 1851, four were ordained. In 1852, three were added to the ministry. In 1853, two graduated and in 1854, five more were added to the list of Alumni.

During all these years, Nashotah Mission had no building at all adequate to the work in hand. A few shanties, the best her finances allowed, contained the larger number of her rooms. Bishop Kemper commenced in 1859, the collecting of a building fund. This increased by donation and interest, until at length it seemed to warrant the beginning of an edifice. In the fall of 1854, the first earth for putting in the foundation, was moved by the Rev. Dr. Adams and the foundation was finished before winter. On the 12th inst., just before the work was resumed, the corner-stone was laid by Bishop Kemper, with appropriate and interesting services. Tho' the day was stormy, a goodly number of clergy were present, and a numerous audience from the immediate vicinity. The procession of clergy and people, headed by the Bishop, left the chapel of the Mission during an opportune interval between the showers, repeating the 132d psalm of the Psalter. Around the corner-stone, several psalms were said and sung, and suitable prayers were offered, in which nearly all the clergy present took part. A bible and prayer-book having been duly deposited underneath, Bish. Kemper laid the corner-stone of Bishop White Hall, in the name of the Blessed, Holy and Glorious Trinity. After suitable collects, the procession returned to the chapel. Rev. Mr. Stout of Waukesha, read the evening service.—Rev. Mr. Clarkson, of Chicago, delivered a very interesting and appropriate address. The whole was closed with Collects and Benediction by the Bishop.

The edifice so auspiciously commenced, is to be three stories, with a roof so steep and finished with gables as to allow as many rooms on the fourth floo , as on the first. Eight rooms on each floor—making thirty-two in all. The walls are of brick, faced with the cream colored brick. This building completed, will accommodate thirty-two students. The architects are J. & A. Douglass of Milwaukee.

At present, five clergymen are associated in the mission, and nearly thirty young men preparing for the ministry. They are all sustained by the free-will offerings of those who desire to extend the Church of Christ. From the beginning, Nashotah Mission has had no other resource beside the alms and offerings of those interested in the work she has in hand. The Twenty-six Alumni were prepared by these means, and this new building is erected by the same.

Nashotah is nearly thirty miles from Milwaukee. To reach the mission the visitor takes the Milwaukee and Watertown Rail Road to the Pine Lake station. He is then within 9½ miles. The few years since the three founders of Nashotah came into the Territory have wrought great changes. It was then a tedious day's journey to Milwaukee and often even longer. Now two Rail Roads enable us to reach the rapidly increasing metropolis in a small fraction of the day.

OPERA AT MILWAUKEE.—The Milwaukee Musical Society have within the last two years produced many of the best operas in a manner greatly to the credit of its director, Mr. Balatka, and its members, and to the delight of the community at large. The music-loving citizens of Chicago have often wished it were possible for them to attend these concerts, and now the present completion of the railroad between the two cities, will render it a very easy matter.—We notice that the celebrated opera "Der Freischuetz," by *Mozart*, will be performed, for the third time, next Thursday. The chorus-es will be given by sixty voices, and the orchestra numbers thirty-two performers. The tickets are one dollar.

The character of these concerts will compare favorably with operas in the older and larger cities. The attainments of the German Musical Society of Milwaukee have given that city the third place in the list of the musical cities of the continent. It would be an impossibility to maintain such an effective and talented musical force, were it not that the greater portion of the members are amateurs, cultivating the art from simple love of its elevating enjoyments, and the consequence is that the public reaps a pleasure at a small cost for which other places pay monstrous sums, and are no better entertained.—[Chicago Dem. Press.

The opening of the Lake Shore Railroad affords our Chicago friends, as well as our nearer neighbors of Waukegan, Kenosha and Racine, the desired facilities for coming to Milwaukee and hearing the Musical Society. And so on Thursday evening the opera of "Der Freischuetz" is to be performed, for the last time, we are in hopes of seeing some of the music-loving residents from each of the Lake Shore cities present on the occasion.

THE JOLIET "CUT OFF."—The St. Louis papers chuckle considerably over the completion of the Joliet "Cut-Off,"—a road some 45 miles in length connecting the Rock Island and Northern Indiana roads, and passing considerably to the south of Chicago. It is as the *Intelligencer* states, the straightening up of the Railroad line between New York and the Mississippi at Rock Island.—The St. Louis papers seem to think that a large portion of the travel which has heretofore sought the Chicago route, will be diverted by the opening of this new road, and a year or two ago the Chicago papers were considerably exercised in reference to this same "Cut Off." But they have doubtless outgrown the apprehension.

THE COLLINGWOOD ROUTE.—The *Key Stone State*, on her first trip down, arrived at Collingwood on Monday night, with a considerable number of passengers, and between four and five thousand barrels of heavy freight. The Toronto *Globe* says, that the passengers arrived in that city between 2 and 10 o'clock the next morning, and were forwarded, without a moment's delay, by the *Fearless*, which had been detained beyond her usual time for their accommodation.

☞ The *News* of Saturday announces the appointment of BENJAMIN HUNKINS, of New Berlin, Waukesha County, as Indian Agent, to reside at the Menomonee Pay ground in Shawanow County. This is a good selection, Mr. HUNKINS being both honest and capable.

DEATH OF JOHN C. SPENCER.—The Hon. JOHN C. SPENCER died at Albany, on Friday last, the 18th instant, of consumption.

[For the Sentinel.]

Reply to Peter Yates.

Messrs. Editors:—Your daily of May 19th contains an article subscribed by Peter Yates, casting sundry imputations upon the officers of Milwaukee County Jail, and charging them with villainy and treachery. Perhaps Mr. Yates intends to have the public understand that we were parties to his own and his client's secret plans, whatever they may have been or however infamous and wicked, and therefore bound to assist in carrying them to a successful termination, regardless of the consequences which might follow. From this position we most fully and entirely dissent. We have made no pledges, entered into no combinations, or conspiracy, and submit that villainy and treachery are wrongfully imputed to us. The facts were that Mr. Yates came to the jail door, and said—"*Open the door, I want to see Jones.*" The door was opened, Mr Y *shown into the office*, and Jones placed by his side. The office was immediately vacated, the door closed, leaving them alone, to act their pleasure. From that time the "sacred shrine was not invaded," nor their "stately sitting" molested, or nearer approached than the hall running East and West, the only place left for us when the jail office is occupied, save once for a minute, from absolute necessity.

The interview was granted, too, without the slightest intimation from Mr. Yates that he had been, or was about to be, employed as counsel for Jones. We admit that in granting the interview, without first being assured that he was counsel, we erred, and broke a long established rule of the jail. For this special favor we have been dragged before the public and *basely misrepresented*. Under the circumstances, he was entitled to the same privileges as any *casual visitor*, and no more; and might properly have been required to hold his conversation in presence of the jail officers. Further, we had nothing to make us even suspect that he came as counsel, but quite to the contrary, for the obvious reason that Jones had repeatedly said, and so stated to the Court when arraigned, that he needed no counsel, and would employ none.—Notwithstanding all this, contrary to our custom in like cases, we *granted* PETER a private interview, relying solely upon his *gentlemanly appearance* for his good *behavior*. He had the same privileges that other lawyers who come as counsel are granted,—was used just as politely in every respect.

And now, we say that the charge of eavesdropping is not *only* without a *shadow of foundation* and FALSE, but as *dastardly mean* as it is false, and we envy not the head or heart that has thus, unprovoked by us in any manner, thrown it broad-cast to the public.

Again, it is a notorious fact that Jones, from the time of his arrest, has said in jail and elsewh re, that he could and would impeach the witness Ryan. It was no new matter to the District Attorney. Neither was it a cunning scheme emanating in the fertile brain of the egotistical Counsel, whose nervous system received so severe a shock by its announcement, that nothing short of a mental fluttering, sufficiently prolonged to inform the public of his *peculiar* grievance, could restore it to its accustomed Equilibrium.

With so much of his epistle as relates to John Ryan, street talk, &c., we have nothing to do, and know nothing about. But as to his final protest we say, that we do not hold ourselves responsible for the indiscretion of any man, and have yet to learn that it is *incumbent* upon us to smother facts that come to our knowledge, and that too, for the purpose of *preventing* the *detection of crime*. We never have obtained information by listening to confidential communications between counsel and prisoner, nor have we attempted so to do; (although it has been in timated to us that some of the numerous counsel of this City needed *close watching*). We consider it a duty we owe ourselves and the public, to make known to the Dist. Attorney and other proper officers, any matter that may come to our possession, which will assist in ferretting out rogues, or bringing guilty parties to justice.

We shall continue *according to the best of our* humble abilities to discharge that duty, faithfully and fearlessly, without consulting the whimsical notions of our VERY *sensitive visitor*, PETER YATES.

OFFICERS OF THE JAIL.

Milwaukee, May 19th.

A CERTIFICATE OF CHARACTER.—The Washington *Union*, in the vain hope of reconciling the Slavery propagandists of the South to the continuance in office of GOV. REEDER, of KANSAS, gives this functionary a very strong certificate of character. It declares that Mr. REEDER has throughout his political career, opposed the Whig-Locofoco proviso, sustained the fugitive slave law, advocated the Kansas and Nebraska bill, denounced Abolitionism from first to last, and boldly co-operated in every movement for the protection of the South, in its rights under the constitution. This may all be so, and yet, because GOV. REEDER hesitates to "co-operate" in still another *movement*" for the benefit of the South i.e., the *forcible* introduction of Slavery into KANSAS, the advocates and admirers of the "peculiar institution" are clamorous for his removal, and the substitution of some more pliant instrument.—Gov. REEDER'S whole life of devotion to the interests of Slavery goes for nothing when weighed in the balance with his refusal to "co-operate" in the designs of Vice-President ATCHISON and his gang of Missouri ruffians.

THE RESCUE TRIALS FUND.—The whole amount received at the *Free Democrat* office, for the *Rescue Trials Fund*, up to May 19th, was $1241,00, and by the Committee, $374,82—making in the aggregate $1616,72. The estimated expenses of the trials amounted to $2000, of which all but $384 has now been contributed.

Important Discovery—A new Anæsthetic.

DR DIXON, the well-known editor of the *Scalpel*, has a communication in the N. Y. *Tribune* of Thursday last, in reference to the use and frequent abuse of Chloroform, &c., in which he speaks, as follows of the new anæsthetic, for that salt:

I have now the gratification of assuring you that we possess a new anæsthetic, adapted to almost every trifling operation, and yet, to many of the larger ones, that can by no possibility ever destroy life. Mr. Arnott of London has recommended ice and salt, in the proportion of two parts to one, finely pounded and applied directly to the skin where the incisionis to be made for a period of time varying from four to five minutes, by inclosing the mixture in a fine gauze bag.—If the patient be nearly bloodless in the skin I would advise four, and if of a higher degree of cutaneous circulation five minutes contact. It will then be found that the part will slightly harden, whiten, and become completely benumbed; it will appear precisely like the dead cuticle and the thinnest razing on a cake, and will crackle a little when pressed upon by the fingers.

I have recently performed operations as extensive as amputating the entire breast, removing warts, applying caustic &c., without the slightest pain, by means of this beautiful and beneficent agent, and can assure you that surgeons will find it perfectly reliable in any case where the part is accessible to its action. As this is the case in nine-tenths of all the cutting operations, we may confidently anticipate the most delightful results from this great discovery. I can assure sufferers that if they observe the caution never to apply it over five minutes there will be no interruption to the healing process. I have had the extensive incision made in removing the entire breast, actually unite by adhesion, or without the formation of pus! This is proof positive. I would not hesitate to use it with confidence in the amputation of the thigh, if there were strong objections to either, as the incision through the skin is that productive of the most pain. Ether, however, will be readily used in amputations, and I think properly, because the tying of the arteries is extremely painful; but in all extraneous operations I know it to be perfect in its action.

One caution allow me to repeat: Apply it for four minutes in all feeble persons and then try by means of the point of the knife whether the part be insentient; if so it is ready, if not wait a half or a whole minute more and then try again. I should not be willing to exceed six minutes in any case, for fear of mortification or sloughing, as surgeons call it, because this happens when a part is frozen.

I hope, my dear Sir, these hints may do an amount of good in your valuable paper that the limited circulation of my journal would not permit me to hope.

EDWARD DIXON, M. D., No. 48 Pitt-st.

Chivalry of the Old Dominion.

To the Editors of The N. Y. Tribune.

SIR: I perceive an article going the usual rounds of the public prints stating that recently at the University of Virginia I was insulted with a mock serenade and my sister, Mrs. Stowe, at the same time burned in effigy.

The impossibility of this is apparent when it is considered that at that place are assembled more than five hundred of the flower of Southern chivalry and from every State south of Mason and Dixon's Line.

These young gentlemen too are members of a literary institution unrivaled not only at the South but throughout the nation for a most thorough, liberal and extensive course of instruction, so that Yale and Cambridge are entirely outdone.

The visit by myself and a literary lady friend was to two of their favorite Professors, *by invitation and without escort.*

Moreover, during the last twenty years I have passed from East to West and back again not less than *thirty times*, have traveled and visited in every Free State and in five of the Southern States, and never have known of a disrespectful word or action toward myself, or any lady in my presence. This fact of course adds to the improbability that in the above circumstances the *first* known insult should have transpired.

After several days of most hospitable attentions, and after the wonted pilgrimage to the tomb of the Sage of *Monticello*, the whole was crowned with a parting moonlight serenade under my balcony.

It is true the performers were dressed in a uniform that was "peculiar" and their instruments were of the "patriarchal" description. But when the young and unpractised *bring the best they have and do the best they know how* every generous mind regards the offering as perfect of its kind.

I am no connoisseur in music, but I understand that the highest style of composition always includes many *discords*. From this I inferred that the musical developments of the young gentlemen were of as high an order as their literary, and that as I was not able to attend any recitations, this demonstration was *offered as an index* of of their *whole* polite culture,—*exp de Herculem!*

As to the burning of my sister in effigy I am confident no such transaction occured while I was there. Possibly after we left some clique who imagined that too many honors were offered to one member of a "peculiar" family, attempted something of this kind as an offset. But certainly nothing occured during our stay that was deemed anything but the kindest and most distinguished hospitality, and I trust all editors who in this matter have contributed to disseminate a false impression of the Chivalry of the Old Dominion will insert this rectification.

THE LAKE SHORE RAIL ROAD.—Our contemporaries, all along the Lake Shore, express unbounded satisfaction at the completion and opening of the Rail Road, which unites our cities and towns by iron bands. The Kenosha *Democrat*, in its notice of the prosecution of the work, pays a well-merited compliment to the contractors, Messrs. BISHOP & STEWART, on the Wisconsin end of the Road, and Mr. ALTON, the Engineer, which we take pleasure in transferring to our columns:

The Lake Shore Railroad was chartered by our State Legislature but a little more than two years ago, and since that time has steadily progressed, notwithstanding the unusual "hardness of the times" among railroad men, and the general financial embarrassments of the country, and on the whole it may be considered one of the most expeditiously built roads of the country.

Too much cannot be said of the energy and perseverance of Messrs Bishop & Stewart in prosecuting the work under all the disadvantages they were obliged unexpectedly to encounter—or of the fidelity and discretion with which Mr. Alton the Chief Engineer, has consulted alike the interests of the road and of the public in the discharge of his duties. The road begins its existence and "labor of love," under the most favorable auspices with the confidence of the community through which it runs in both its financial ability and its ability to impart as well as receive the blessings of prosperity, and hoping and believing this confidence may always exist, 'long may it wave!"

The "Higher Law."

From the N. Y. Tribune.

We cut the following extract from a speech of Senator Hunter of Virginia, made at Petersburg in Virginia last month, as reported in *The Washington Sentinel:*

"Fellow-citizens, such a distinction does not in truth exist. The Catholic of the present day no more admits the supremacy of the Church in temporal matters than the Protestant; their difference is in regard to spiritual concerns. The Protestant maintains the right of private judgment in matters of conscience; the Catholic believes that in spiritual affairs the decisions of the Church ought to overrule the individual judgment. But Protestants and Catholics, all Christian Churches and individuals believe that their allegiance which they owe to God is higher than any obligation to man; and that in a conflict between human and Divine law, you must serve God rather than man."

Mr. Seward and other northern men have been often enough held up before the country as guilty of unpardonable atrocity in suggesting the idea of a "higher law." But we are not aware that the doctrine was ever stated anywhere in a more flat-footed manner than in the foregoing extract by the highly-conservative Senator from Virginia.

OLD WINE.—The Maine Law did not prevail at the dinner given by the city of London to the French Emperor and Empress. The *Times* says

"The *dejeuner* and wines for the Emperor and suite, as well as the general refreshments, were furnished by Messrs. Staples, of the Albion. The wines supplied to the Imperial table include the choicest hock, champagne, malvoisie, amontillado and sherry, 109 years old, of matchless quality. This latter wine was of peculiar interest, being part of a cask supplied at the enormous price of £600 per butt to his late Majesty Napoleon I."

THE DIRECT ROUTE TO PHILADELPHIA.—A gentlemen who left Philadelphia on Monday morning at 6 o'clock, and arrived in this city in fifteen hours, by the Catawissa, Erie and Buffalo & New York City Railroads, informs us that the Williamsport train connected as per time-table, at Elmira, with the train which left New York also at 6 thus passengers from the two great cities came through together, reaching Buffalo at 9 o'clock. Our informant states that many Philadelphians bound for Cleveland, were upon the train, and that facts favor the probability that the new route will soon supersede, in the preference of the citizens of that town, the route by Pittsburg. All expressed themselves delighted with the promptness, speed and comfort of the direct line.—[Buffalo Democracy.

☞ Georgiana H. Bate, (English woman,) arrived in this city lately, in search of a husband who left her 20 years ago. She claims John F. Bate, mahogany dealer in Hudson street, as "her man," while he denies all knowledge of Georgiana. He married Lee, and has a large family and plenty of means. Mrs. Bate insists that she is entitled to be maintained, as she had him arrested in Canada about seven years ago for the same offence, and that it cost him a good round sum to get out of the scrape. She brings letters of recommendation from the Lord Mayor of London and other high functionaries.—[N. Y. Mirror.

DEATH OF WILLIAM SLOAN, ESQ.—The hopes which were entertained by the friends of this unfortunate gentleman, that he would recover from the effects of the dreadful accident which befell him on the 5th instant, have proved futile. Mr. Sloan expired on yesterday morning at 4 o'clock at the Lake House.

The deceased was a native of Haverhill, New Hampshire, but for a considerable period has resided in the west, and been largely identified with its interests, and has left many friends to lament his death.

His remains will be taken to Woodstock for interment. His age was about thirty-two years.—[Chicago Tribune, May 19.

A LAW-ABIDING CITY.—We do not claim that there is no violation of the Statute in respect to selling intoxicating liquors, in Rochester; but what we do say is, that there is next to none,—and further that in respect to quiet, cheerful submission to the law, we are ahead of every other city in the State. This fact, which will not be disputed, is highly creditable to our citizens, and is no mean distinction to be first in regard for, and obedience to the law of the land.—[Rochester American, May 17.

ANOTHER FLEET.—St. Paul awoke yesterday morning to find one of the largest fleets of steamers at her levee. Since Saturday evening, the Galena, Golden Era and Minnesota Belle have arrived from Galena, and the Regulator, Ben Wood, Navigator and New St. Paul from St. Louis.

The Navigator brought up a very large freight for St. Paul and ports on the St. Croix.—[Minnesotian, May 15.

GOING WEST.—On Friday last, four trains of covered wagons, filled with household furniture, such as children, &c., while their parents were busy in driving droves of cattle, sheep and hogs, passed bound for the North-West.—[Madison Patriot.

TRAVEL INCREASING.—For the last three days there heavily laden coaches, with about the same number of Europeans and natives, have left the City for Read du Lac, each day. Every boat leaves a large freight, and a crowd of passengers at our wharves.—[Times (Sheboygan.) May 19.

CITY MATTERS.

CIRCUIT COURT.—May 21.

JUDGE HUBBELL, PRESIDING.

The jury in the case of the State of Wisconsin vs. Walter H. Blake, George Santee and Samuel McPherson, for Burglary with intent to steal and commit murder at the Ten Mile House on the 7th April, brought in their verdict on Sunday at ¼ to 1 P. M., after being out 18 hours; the verdict being that the whole of the defendants were guilty in the manner and form as charged in the indictment."

Yesterday application was made for a new trial for George Santee on the ground that an alibi can be proved—that the defendant was in Kenosha at the time the affair took place—the Court took time to consider the application.

The Court then proceeded to the decision of several motions of some days standing; when the trial of Simon Adler, for obtaining from William J. Bell & Co., of the Exchange Bank, $760 by false pretenses on the 20th of February last, was called on and commenced.

The *Jury found* the defendant guilty.

The case of the State vs. Hardtke, for forging the same Bill of Exchange upon which Adler fraudulently obtained the money, was then commenced, but was not finished at the time of going to press.

POLICE COURT.—May 21.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A man named Charles J. Hildel was tried for an assault and battery upon Alex. Anderson on the 21st May, found guilty, and fined $10,00 and costs, amounting in all to $16,40—the costs and fine were paid.

MADAM JACOBI'S CONCERT.—The Concert given on Friday evening, at Young's Hall, by Madam JACOBI, assisted by several amateurs and the members of the Musical Society, though not as fully attended as it deserved to be, afforded a rich treat to those present. Madam JACOBI hurried off sung two difficult pieces in admirable style, and with a facility of execution and excellent taste that showed how thorough had been her instruction in the best Italian schools. This lady, who has resided in our city since last fall, is dependent for a livelihood upon her success as a Teacher of Music. As yet, she has obtained but few scholars and is most anxious to add to the number. She is so thorough a proficient in the elegant accomplishment which she proposes to teach that we can with entire confidence recommend her to the public as in all respects deserving of patronage.

Promenade Concert.

MR. OTTO RUPPIUS will give the first of his proposed series of Promenade Concerts at Young's Hall this evening, and has sent invitations to a large number of our leading citizens to attend he same and judge for themselves of the quality of the entertainment offered. The hall will be tastefully arranged for the occasion, and extraordinary pains have been taken to render the Concert successful. We can assure all who attend, that they will hear some delightful music and will be prepared to wish Mr. RUPPIUS entire success in his novel and attractive enterprise. The Concert will commence at 8 o'clock.

FIGHT AT THE PIER AND ON THE TRAVELLER.—A row took place on the Pier and on the steamer Traveller, on Sunday afternoon. As near as we could ascertain, the facts were these:—A German attempted to obtain some packages from the boat without having previously paid the freight. He was prevented and went ashore, where he was told to stay. He went aboard the boat again—was ordered ashore, and refusing to go, the officers of the boat were in the act of putting him ashore when he resisted. At this time constable Ryan jumped on board the boat and interfered, and in the melee was struck and kicked several times and dragged ashore. After getting ashore he commenced to threaten that if he had "brickbats enough he'd smash the old boat to pieces." These are the statements made to us by several men who witnessed the trouble. We were not present ourselves.

THE CIRCUS.—A fine band, drawn by six horses of as many colors as Joseph's coat of old, drew admiring crowds of youngsters as it passed through the streets yesterday morning. Fathers and Mothers were besieged and teased till the necessary quarters were forthcoming, and many a pair of black eyes snapped when the funds made their appearance. Hosts of children of larger and smaller growth were on hand in the afternoon to see whether the doings came up to the "sounding tenor of the manifesto," as Webster said of the S. Carolina nullifiers. An enthusiastic individual who was present assures us that, Lowell the lecturer to the contrary notwithstanding, dictionary words are quite inadequate to do justice to the performances, and that the advertisement is quite mild in comparison to the great doings to be repeated on Spring Street to-day.

ARREST OF THE LAST NEGRO OF THE TEN MILE HOUSE.—Jacob Griffin, the fourth of the men engaged in the murderous assault upon the family of Mr. Smith on the 7th of last April, was arrested at Port Washington on Sunday, and brought to this city yesterday morning by under sheriff Parsons. This man was indicted with the three who have been tried and convicted for the affray, but not being in custody the other three were put on trial without him. There is not much prospect of a trial for Griffin at this term of court.

RAIN.—Our city was visited by a fine shower, yesterday morning, attended with thunder and lightning. The rain fell gently for an hour or two, and being followed by a warm, bright sunshine, gave a fine start to the gardens and shrubbery about town. A few more of the same sort of showers would be highly acceptable to the farmers.

CATALOGUES OF Y. M. A. LIBRARY.—By the advertisement of the Librarian of the Young Men's Association, it will be seen that we were too fast in noticing the whereabouts of the Catalogues the other day, and that the last edition, and only "genuine old Dr. Townsend" are to be had at the Rooms of the Association.

BELOIT AND MILWAUKEE RAILROAD.—A notice from the Commissioners of this road will be found in our advertising columns. We have already taken occasion to commend the enterprise to the favorable notice of our citizens, and are glad to see that steps are about to be taken to bring it more prominently before the public.

POST-MORTEM LORE.—A laboring man lost on Saturday afternoon, in going from Second st., through Spring and East water st, to Rooney's Auction Room or else at the latter place, a green leather port-monnaie, bound with brass, containing about $15,00. The owner is poor, and has been maimed lately so as to be unable to work, and needs the money. We trust that the finder will return it to him. It may be left at this office.

FOR SAULT ST. MARIE.—The steamer *Superior* will leave Desnoyan's dock to-morrow morning for Sault St. Marie, stopping at Manitowoc, Two Rivers, and all the intermediate ports. For passage apply to J. GRIFFIN, three doors from American Express Company's office, on Huron street.

FOR BUFFALO.—The propeller *Niagara* will leave for Buffalo to-morrow morning. For passage apply to J. GRIFFIN on Huron street, three doors from the American Express Company's office.

CHANGE OF BOATS.—Hereafter the boats of Clemens's Line running between this port and Chicago, will be changed. The steamers *Arctic* and *Traveller* running on the night line, and the *Pacific* and *Cleveland* on the day line.

SOUTH PIER.—The work of repairing the damages received by the South Pier during last winter is nearly completed, and boats will be able to land and take goods there by the last of this week.

THE GREEN BAY STONE.—We mentioned some time since that some specimens of lithographic and building stone from the quarry recently opened at the north end of the peninsula which bounds Green Bay on the east, were expected here. Mr. G. H. WOOD, the owner of the quarry, arrived yesterday, and brought several samples, which are in the stone cutter's hands, and may be seen after this noon, at the Hardware Store of J. COLGATE, 111 East Water st., and will be found of very superior quality. A piece of the lithographic stone, taken from the surface, and of course not equal to what may be found below, was faced, and tested by H. SMEARY, Lithographer, of this city, and is pronounced by him to be fully equal to the second quality of German stone, of which a great deal is imported into this country.

HON. AMOS TUCK.—This gentleman, one of the tried and true representatives of the freemen of the old Granite State in Congress, is in town at the Walker House.

☞ The steamer *Pacific* arrived from Chicago yesterday afternoon, with upwards of 300 passengers and about ten tons of freight and twenty-five horses.

DAMAGED GOODS.—ROONEY closes to-day the sale of the fine goods, damaged, which he has had under the hammer for some days past.

DAMAGED GOODS.—The sale of damaged goods by the *Niagara*, made by WALL yesterday, realized very good prices, a large portion of the articles being but slightly damaged, and that by water only.

THE COLLINGWOOD LINE.—The steamer *Queen City* of this line, was in port yesterday taking on a large lot of flour and provisions for Montreal and Ogdensburg, *via*. the Ontario and Simcoe R. R. She cleared last evening for Collingwood.—Quite a number of passengers came down from Chicago by the Lake Shore R. R. to take passage in her for the east.

PROP. FOREST CITY.—This lucky craft came in yesterday, from Buffalo, and landed at Dousman & Co's., about 150 tons merchandize, being the first goods through by the Erie Canal. She runs in the People's Line.

PROP. SCIOTA.—The *Sciota*, one of the five of the American Transportation Co's. Line which terminate their route at this port, has taken on a large cargo of flour and provisions, and clears immediately.

TO BE RECONSTRUCTED.—According to the Washington correspondent of the New York Enquirer, the Know Nothing Order, immediately after the Virginia election, is to be reconstructed, and the secrecy and oaths abolished. The same writer anticipates an open National Convention in November.

FROM THE SAUT.—The steamer Illinois, Capt. Wilson, arrived from the Sault yesterday. She brought down 299 bbls. copper from the Minnesota mine, 262 bbls. and 15 messes from the Isle Royale mine, (in all 214 tons) 100 bbls fish and 86 passengers. The *Illinois* lays over at this port until 9 o'clock this afternoon, and then leaves again for the Sault. She brings intelligence that the lock in the Canal was being repaired as fast as possible, but the water would not probably be let in until the middle of next week. The passage of the Illinois through the Canal and to ports on Lake Superior, will therefore, necessarily be deferred until her next trip.—[Det. Free Press, Saturday.

FIRST RAFT THIS SEASON.—A raft of nearly three thousand logs from the Wolf River Pineries, arrived here yesterday afternoon for Martin & Co., and will be followed by others in quick succession. The arrival was very opportune, the mills having been under a short allowance for the past few days.—[Horicon Argus.

Lake Shore Rail Road.

Passengers from Madison, Watertown, Portage City & the interior to this city by the morning train over the West end of the Milwaukee and Mississippi Rail Road, and take the 9 o'clock A. M. train of the Lake Shore Rail Road, will reach Chicago by 5 P. M. in season to take the early afternoon Express Trains East over the Michigan Southern and Michigan Central Rail Roads. The train from Chicago now arrives here at 1 P. M. giving passengers time to get their dinner, and if need be, stay, attend to any business they may have and take the afternoon trains West over the Milwaukee and Mississippi, or Milwaukee and Watertown Railways. In a few days the Shore train will run a morning train will be put on the Lake Shore road. The through time from Chicago will be reduced to three hours. The shortest time to travel from here on Saturday over Michigan to Chicago is 3 hours and 17 minutes.

The time from Chicago to Madison by this route is 3½ hours, the morning train now nine hours.

THE CHICAGO LAKE SHORE.—THE LAKE SHORE RAILROAD.—We read the following in the Chicago *Press* of Monday morning, at the close of an article in which many complaints are made of the management of the Chicago extension road:

It is only due to say that the Milwaukee and Mississippi road has not been longer than its contract time in preparing for the reception of passengers, and were taken as much by surprise as some of their visitors. Perhaps they may not finally believe the officers of the road were so stationed in saying "it is finished." Perhaps they were not glad of the fact. Perhaps—well, it does not become us to make apologies for others, though we would gladly do it. Is that think the road will do a positive injury to their city, they cannot rejoice at course. But assuredly it may not bring them much business—it will give them facilities for doing what they have and they ought to regard it as a help to the prosperity at least.

We say all, considering that our friends of the *Press & Adv.* that nobody in Milwaukee expected we should not anticipate just such a reading as the above. The one fact, that no reasonable warning was given to the press or the people of our city, is all sufficient to account for all the untoward circumstances, and no later need be expended in looking up apologies.

FROM OUR NEW YORK CORRESPONDENT.

NEW YORK, May 16, 1855.

Summer is upon us suddenly, but dry—for all things we had heavy rains last week, the earth was previously so parched that it but partially softened for the demands of the growing season. For the present at least shantheres and horsebeans of everything the earth produces the interests of the country combined, probably, to the greater extent than will be abundances of the future as to the wide of fruits, vegetables, and grain. We must look to the earth, can produce for the stocks are low everywhere, and mouths multiply daily. From here, indeed the appearance is that the people already, if its surplus or suffering population is nearly to be checked by the demand which we make for soldiers, and the increased value thereby given to the labor of the poor man at home, but still there will be large accessions to our population from abroad, and the national race of increase will go on here. Moreover, a foreign demand for food will certainly continue throughout the present year and perhaps through large future years, for of the war now in progress the end is not readily to be foreseen.

It is stated in some late European papers that London and its Germany—the two great centres of our foreign supply of people, the exciting cause and action of the *Know Nothing* party will direct large portions of the better class of persons who otherwise might emigrate, from coming to this country; and doubtless great efforts will be made, both by civil and ecclesiastical authorities in those countries to deter emigration, by magnifying the evils of this new American organization, albeit assuming exclusively the name of American.

At the South, where slavery is the first interest and first thought, the advent of *armies—peaceful armies*—of free white men, may be looked upon with distrust and dislike; but how in the free states and in our boundless territories, there should exist any party which, loving freedom or even professing to love it, should seek to exclude those who may be efficient allies in the coming hour—if it be not already present and perilous—of free Freedom and Slavery in these United States, this indeed seems incomprehensible.—But I yet hope this delusion will pass, and that our land will be more what it is among its highest titles of honor to be—as saying for the oppressed, and that, too, without becoming a sanctuary for the infamous.

Senator Sumner of Massachusetts, has been addressing a large house here by the delivery on three successive evenings in this city, twice and once in Brooklyn on his great question on "the necessity, practicability and dignity of the Anti-Slavery Entire power." On each occasion the houses were overflowing, and the eloquent Senator is hearing such that willful needs must, spring up in a crop of armed men, if the Kansas outrages persisted in. It is happy that Mass chusetts has not a fitting Senator to assert and maintain the immortal issue of that liberty-loving Commonwealth, and thus much at least of gratitude we owe to Mr. Pierce and Mr. Douglass,—that, by their atrocious policy in the Nebraska bill, they have banded together in one solid and indomitable phalanx all lovers of freedom, under whatever party name heretofore designated. There is indeed, now but the one great political issue—the limitation or the extension of slavery.—and all men must take sides upon that issue.—This is a great gain; and for it we are indebted to Mr. Pierce and his satellites.

Our city is quite excited this morning by the return of the *troops Shot* back, with the murderer Baker, in pursuit of whom she was sent shortly after the murder of Poole. It is an honorable episode in the cause of justice, and cannot fail to produce a salutary impression of the vigor of law, or beyond the pursuits to the immediate transaction. If ever the time shall come when no part of the civilized world shall be deemed a safe harbor for great criminals, a very decisive blow will be struck at the perpetration of crime; and just because the energetic and successful pursuit and capture of Baker in this instance seems to favor such a state of things, is the work important in its results far beyond the particular man in hand.

One steamer *Baltic* is now in her eleventh day, and is eagerly looked for. She will not report, I am sure, the fall of Sebastopol, though she may report the capitulation and surrender of the allied armies to the Russians.

MASSACHUSETTS.—The bill to protect the rights and liberties of the people," of Massachusetts (known as the Law of Liberty Bill) passed the State Senate by a vote of 22 yeas to 3 nays, on the 3lst instant. It had previously passed the House by a very large majority. It practically outlaws the Fugitive slave act.

AN INTELLIGENT ENGLISHMAN.—A late number of the *Land and Water* says, urging that "America go on only at Rome," gravely states that, "in New York the principal hotel is *dedicated to the Russian Czar—Nicholas I*"

CONTRADICTION.—The Cleveland *Leader* says the report that the *Key Stone*, of Ohio, have nominated S. P. Chase for Governor, is false.—They nominated Medill, the Hunker candidate.

For the Daily Sentinel.

Nashotah Mission.

In September of the year 1841, the Rev. Messrs. Adams Breck and Hobart, clergymen of the Protestant Episcopal Church, entered the then newly organized Territory of Wisconsin for the purpose of establishing an Associate Mission. The village of Prairieville, now Waukesha, was first chosen as their head quarters; but after travelling for some time in various portions of their extensive field, they selected with the approbation of Bishop Kemper, a beautiful position on the banks of the upper Nashotah lake, as the site of their establishment. The primary object was the carrying on of *missionary* operations in the neighborhood, but young men desirous of preparing for Holy Orders were very soon received as members of the family, *and after the first year*, the Rev. Dr. Adams devoted himself almost exclusively to Theological Education. Up to the present time, his zeal and talents have—*with one year's intermission*—been most usefully and indefatigably employed in this noble cause. Rev. Mr. Hobart after two years active labor returned to the East. Rev. Mr. Breck continued his zealous labors as President and Missionary until the beginning of the year 1850, when he relinquished his connection with the Institution, and removed to the Minnesota Territory. He was succeeded in September of the same year by the Rev Dr. Cole, who had been unanimously elected President by the Trustees the June previous.

In 1845, the first alumnus of Nashotah graduated, the Rev. Gustaf Unonius, B. D., Rector of St. Ansgarius Church, Chicago. In 1847, the Legislature granted a Charter, conferring full University powers; but Nashotah is exclusively a Theological Institution. During the same year six graduated, two of whom are the present Rectors of St. John's and St. James' Churches, Milwaukee. In 1848, three more graduated. In 1849, one was ordained. In 1850, one graduated. In 1851, four were ordained. In 1852, three were added to the ministry. In 1853, two graduated and in 1854, five more were added to the list of Alumni.

During all these years, Nashotah Mission had no building at all adequate to the work in hand. A few shanties, the best her finances allowed, contained the *larger* number of her rooms. Bishop Kemper commenced in 1853, the collecting of a building fund. This increased by donation and interest, until at length it seemed to warrant the beginning of an edifice. To the fall of 1854, the first earth for putting in the foundation was moved by the Rev. Dr. Adams and the foundation was finished before winter. On the 19th ult. just before the work was resumed, the corner-stone was laid by Bishop Kemper, with *appropriate and interesting services*. Tho' the day was stormy, a goodly number of clergy were present, and a numerous audience from the immediate vicinity. The procession of clergy and people, headed by the Bishop, left the chapel of the Mission during an opportune interval between the showers, repeating the 132d psalm *of the Psalter*. Around the corner-stone, several psalms were said and sung, and suitable prayers were offered, in which nearly all the clergy present took part. A *bible* and prayer-book having been duly deposited underneath, Bish. Kemper laid the corner-stone of Bisnop White Hall, in the name of the Blessed, Holy and Glorious Trinity. After suitable collects, the procession returned to the chapel. Rev. Mr. Stout, of Waukesha, read the evening service.—Rev. Mr. Clarkson, of Chicago, delivered a very interesting and appropriate address. The whole was closed with Collects and Benediction by the Bishop.

The edifice so auspiciously commenced, is to be three stories, with a roof so steep and finished with gables as to allow as many rooms on the fourth floo , as on the first. Eight rooms on each floor—making thirty-two in all. The walls are of brick, faced with the cream colored brick. This building completed, will accommodate thirty-two *students*. The architects are J. & A. Douglass of Milwaukee.

At present, five clergymen are associated in the mission, and nearly thirty young men preparing for the ministry. They are all sustained by the free-will offerings of those who desire to extend the Church of Christ. From the beginning, Nashotah Mission *has had no other resource* beside the alms and offerings of those interested in the work she has in hand. The Twenty-six Alumni were prepared by these means, and this new building is erected by the same.

Nashotah is nearly thirty miles from Milwaukee. To reach the mission the visitor takes the Milwaukee *and* Watertown Rail Road to the Pine Lake station. He is then within 3½ miles. The few years since the three founders of Nashotah came into the Territory have wrought great *changes*. It was then a tedious day's journey to Milwaukee and often even longer. Now two Rail Roads enable us to reach the rapidly increasing metropolis in a *small fraction of the day*.

OPERA AT MILWAUKEE.—The Milwaukee Musical Society have within the last two years produced many of the best operas in a manner greatly to the credit of its director, Mr. Balatka, and its members, *and to the delight of the* community at large. The music-loving citizens of Chicago have often wished it were possible for them to attend these concerts, and now the present completion of the railroad between the two cities, will render it a very easy matter.—We notice that the celebrated opera "Der Freischuetz," by *Meyer*, will be performed, for the third time, next Thursday. The chorus will be given by sixty voices, and the orchestra numbers thirty-two performers. The tickets are one dollar.

The character of these concerts will compare favorably with operas in the older and larger cities. The attachments of the German Musical Society of Milwaukee have given that city the first place in the list of the musical cities of the continent. It would be an impossibility to maintain such an effective and talented musical force were it not that the greater portion of the members are amateurs, cultivating the art from simple love of its elevating enjoyments, and the consequence is that the public reaps a pleasure at a small cost for which other places pay monstrous sums, and are no better entertained.—[Chicago *Dem Press*.

The opening of the Lake Shore Railroad affords our Chicago friends, as well as our nearer neighbors of Waukegan, Kenosha *and* Racine, the desired facilities for coming to Milwaukee and hearing the Musical Society. And as on Thursday evening the opera of "Der Freischuetz" is to be *performed, for the last time*, we are in hopes of seeing some of the music-loving residents from each of the Lake Shore cities present on the occasion.

THE JOLIET "CUT OFF."—The St. Louis papers chuckle considerably over the completion of the Joliet "Cut-Off."—a road some 46 miles in length connecting the Rock Island and Northern Indiana roads, and passing considerably to the south of Chicago. It is, as the *Intelligencer* states, the straightening up of the Railroad line between New York and the *Mississippi* at Rock Island.—The St. Louis papers seem to think that a large portion of the travel which has heretofore sought the Chicago route, will be diverted by the opening of this new road, and a year or two ago the Chicago papers were considerably exercised in reference to this same "Cut Off." But they have doubtless outgrown the apprehension.

THE CORLINGWOOD ROUTE.—The *Key Stone State*, on her first trip down, arrived at Collingwood on Monday night, with a considerable number of passengers, and between *four* and *five* thousand barrels of heavy freight. The Toronto *Globe* says, that the passengers arrived in fast city between 9 and 10 o'clock the next morning, and were forwarded, without a moment's delay, by the *Fearless*, which had been detained beyond her usual time for their accommodation.

☞ The *News* of Saturday announces the appointment of BENJAMIN HUSKINS, of New Berlin, Waukesha County, as Indian Agent, to reside at the Menomonee Pay ground in Shawanow County. This is a good selection, Mr. HUSKINS being both honest and capable.

DEATH OF JOHN C. SPENCER.—The Hon. JOHN C. SPENCER died at Albany, on Friday last, the 18th instant, of consumption.

[For the Sentinel.]

Reply to Peter Yates.

Messrs. Editors:—Your daily of May 19th contains an article subscribed by Peter Yates, casting sundry imputations upon the officers of Milwaukee County Jail, and charging them with villainy and treachery. Perhaps Mr. Yates intends to have the public understand that we were parties to his own and his client's secret plans, whatever they may have been or however *infamous* and wicked, and therefore bound to assist in carrying them to a successful termination, regardless of the consequences which might follow. From this position we most fully and entirely dissent. We have made no pledges, entered into no combinations, or conspiracy, and submit that villainy and treachery are *wrongfully* imputed to us. The facts were that Mr. Yates came to the jail door, and said—"*Open the door, I want to see Jones.*" The door was opened, Mr Y *shown into the office*, and Jones placed by his side. The office was immediately vacated, the *door closed*, leaving them alone, to act their pleasure. From that time the "*sacred shrine* was not invaded," nor their "stately sitting" molested, or nearer approached than the hall running East and West, the only place left for us when *the jail office* is occupied, save once for a minute, from absolute necessity.

The interview was granted, too, without the slightest intimation from Mr. Yates that he had been, or was about to be, employed as counsel for Jones. We admit that in granting the interview, without first being assured that he was counsel, we erred, and broke a long established rule of the jail. For this special favor we have been dragged before the public and *basely misrepresented*. Under the circumstances, he was entitled to the same privileges as any *casual visitor*, and *no more*; and might properly have been required to hold his conversation in presence of the *jail officers*. Further, we had nothing to make us even suspect that he came as counsel, but quite to the contrary, for the obvious reason that Jones had repeatedly said, and so stated to the Court when arraigned, that he needed no counsel, and would employ none.—Notwithstanding all this contrary to our custom in like cases, we granted PETER a private interview, relying solely upon his *gentlemanly appearance* for his good *behavior*. He had the same privileges that other lawyers who come as counsel are granted,—was used just as politely in every respect.

And now, we say that the charge of eavesdropping is not only without a shadow of *foundation* and FALSE, but as *dastardly mean* as it is false, and we envy not the head or heart that has thus, unprovoked by us in any manner, thrown it broad-cast to the public.

Again, it is a notorious fact that Jones, from the time of his arrest, has said in jail and elsewhere, that he could and would impeach the witness Ryan. It was no new matter to the District Attorney. Neither was it a cunning scheme emanating in the *fertile brain of the egotistical* Counsel, whose nervous system received so severe a shock by its announcement, that nothing short of a mental fluttering, sufficiently prolonged to inform the public of his *peculiar* grievances, could restore it to its accustomed Equilibrium.

With so much of his epistle as relates to John Ryan, street talk, &c., we have nothing to do, and know nothing about. But as to his final protest we say, that we do not hold ourselves responsible for the indiscretion of any man, and have yet to learn that *it is* incumbent upon us to smother facts that come to our knowledge, and that too, for the purpose of *preventing the due ton of crime*. We never have obtained information by listening to confidential communications between counsel and prisoner, nor have we attempted so to do; (although it has been it imated to us that *some of* the numerous counsel of this City needed *close watching*). We consider it a duty we owe ourselves and the public, to make known to the Dist. Attorney and other proper officers, any matter that may come to our possession, which will assist in ferretting out rogues, or bringing guilty parties to justice.

We shall continue *according to the best of our* humble abilities to discharge that duty, faithfully and fearlessly, without consulting the whimsical notions of our VERY *sensitive visitor*, PETER YATES.

OFFICERS OF THE JAIL.

Milwaukee, May 19th.

A CERTIFICATE OF CHARACTER.—The Washington *Union*, in the vain hope of reconciling the Slavery propagandists of the South to the continuance in office of Gov. REEDER, of KANSAS, gives this functionary a very strong certificate of character. It declares that Mr. REEDER has throughout his political career, opposed the Wilmot proviso, sustained the fugitive slave law, advocated the Kansas and Nebraska bill, denounced Abolitionism from first to last, and boldly co-operated in every movement for the protection of the South, in its rights under the constitution. This may all be so, and yet, because Gov. REEDER hesitates to "co-operate" in still another *movement*" for the benefit of the South I. s, the *forcible* introduction of Slavery into Kansas, the advocates and admirers of the "peculiar institution" are clamorous for his *removal*, and the substitution of some more pliant instrument.—Gov. REEDER'S whole life of devotion to the interests of Slavery goes for nothing when weighed in the balance with his refusal to "co-operate" in the designs of Vice-President ATCHISON and his gang of Missouri ruffians.

THE RESCUE TRIALS FUND.—The whole amount received at the *Free Democrat* office, for the Rescue *Trials Fund*, up to May 19th, was $1241,00, and by the Committee, $374,63—making in the aggregate $1616,72. The estimated expenses of the trials amounted to $2000, of which all but $384 has now been contributed.

Important Discovery-A new Anæsthetic.

DR DIXON, the well-known editor of the *Scalpel*, has a communication in the N. Y. *Tribune* of Thursday last, in reference to the use and frequent abuse of Chloroform, &c., in which he speaks, as follows of the new anæsthetic Ice and salt:

I have now the gratification of assuring you that we possess a new anæsthetic, adapted to almost every trifling operation, and even to many of the larger ones, that can by no possibility ever destroy life. Mr. Arnott of London has recommended ice and salt *in the proportion of two* parts to one, finely pounded and applied directly to the skin where the incisionis to be made for a period of time varying from four to five minutes, by inclosing the mixture in a fine gauze bag.—If the patient be nearly bloodless in the skin I would advise four, and if of a higher degree of cutaneous *circulation five* minutes connect. It will then be found that the part will slightly harden, whiten, and become completely benumbed; it will appear precisely like the most delicate and the thinnest cooling ice cake, and will crackle a little when pressed upon by the fingers.

I have recently performed operations as extensive as amputating the entire breast, removing warts, applying caustics &c., without the slightest pain, by means of this beautiful and beneficent agent, and can assure you that surgeons will find it perfectly reliable in any case where the part is accessible to its action. As this is the case in nine-tenths of all the cutting operations, we may confidently anticipate the most delightful results from this great discovery. I can assure surgeons that if they observe the caution never to apply it over five minutes there will be no interruption to the healing process. I have had the extensive incision made in removing the pectoris breast, actually unite by adhesion, or without the formation of pus! This is proof positive. I would not hesitate to use it with confidence in the amputation of the thigh, if there were strong objections to ether, as the incision through the skin is that productive of the most pain. Ether, however, will be mainly used in amputations, and I think properly, because the tying of the arteria is extremely painful; but in all cutaneous operations I know it to be perfect in its action.

One caution allow me to repeat: Apply it for four minutes in all feeble persons and then try by means of the point of the knife whether the part be insensitive; if so it is ready, if not wait a *half* or a whole minute more and then try again. I should not be willing to exceed six minutes in any case, *for fear of* mortification or sloughing, as surgeons call it, because this happens when a part is frozen.

I hope, my dear Sir, these hints may do an amount of good in your valuable paper that the limited circulation of my journal would not permit me to hope.

EDWARD DIXON, M. D., No. 16 Fifth-st.

Chivalry of the Old Dominion.

To the Editors of The N. Y. Tribune.

SIR: I perceive an article going the usual rounds of the public prints stating that recently at the University of Virginia I was insulted with a mock serenade and my sister, Mrs. Stowe, at the same time burned in effigy.

The impossibility of this is apparent when it is considered that at that place are assembled more than five hundred of the flower of Southern chivalry and from every State south of Mason and Dixon's Line.

These young gentlemen too are members of a literary institution unrivaled not only at the South but throughout the nation for a most thorough, liberal and extensive course of instruction, so that Yale and Cambridge are entirely prudish.

The visit by myself and a literary lady friend was to two of their favorite Professors, *by invitation and without escort.*

Moreover, during the last twenty years I have passed from East to West and back again not less than *thirty times*, have traveled and visited in every Free State and in five of the Southern States, and never have known of a disrespectful word or action toward myself, or any lady in my presence. This fact of course adds to the improbability that in the above circumstances the *first* known insult should have transpired.

After several days of most hospitable attentions and after the wonted pilgrimage to the tomb of the Sage of Monticello, the whole was crowned with a parting moonlight serenade under my balcony.

It is true the performers were dressed in a uniform that was "peculiar" and their instruments were of the "patriarchal" description. But when the young and unpractised *bring the best they have and do the best they know how every* generous mind regards the offering as perfect of its kind.

I am no connoisseur in music, but I understand that the highest style of composition always includes many *discords*. From this I inferred that the musical developments of the young gentlemen were of as high an order as their literary, and that as I was not able to attend any recitations, this demonstration was *offered as an index* of their *whole* polite culture,—*cap de Hercules!*

As to the burning of my sister in effigy I am confident no such transaction occured while I was there. Possibly after we left some clique who imagined that too many honors were offered to one member of a "peculiar" family, attempted something of this *kind* as an offset. But certainly nothing occured during our stay that was deemed anything but the kindest and most distinguished hospitality, and I trust all editors who in this matter have contributed to disseminate a false impression of the Chivalry of the Old Dominion will insert this rectification.

CATHERINE E. BEECHER.

—[N. Y. Tribune.

THE LAKE SHORE RAIL ROAD.—Our contemporaries, all along the Lake Shore, express unbounded satisfaction at the completion and opening of the Rail Road, which unites our cities and towns by iron bands. The Kenosha *Democrat, in its notice* of the prosecution of the work, pays a well-merited compliment to the contractors. Messrs. BISHOP & STEWART, on the Wisconsin end of the Road, and *Mr. ALTON*, the Engineer, which we take pleasure in transferring to our columns:

The Lake Shore Railroad was chartered by our State Legislature but a little more than two years ago, and since that time has steadily progressed, notwithstanding the unusual "hardness of the times" among railroad men, and the general financial embarrassments of the country, and on the whole it may be considered one of the most expeditiously built roads of the country.

Too much cannot be said of the *energy* and perseverance of Messrs Bishop & Stewart in prosecuting the work under all the disadvantages they were obliged unexpectedly to encounter—or of the fidelity and discretion with which Mr. Alton the Chief Engineer, has consulted alike the interests of the road and of the public in the discharge of his duties. The road begins its existence and "labor of love," under the most favorable auspices, with the confidence of the community through which it runs in both its financial ability and its ability to impart as well as receive the blessings of prosperity, and hoping that this confidence may always exist 'long may it wave!"

The "Higher Law."

From the N. Y. Tribune.

We cut the following extract from a speech of Senator Hunter of *Virginia*, made at Petersburg in Virginia last month, as reported in *The Washington Sentinel*:

"Fellow-citizens, such a distinction does not in truth exist. The Catholic of the present day *no more admits* the supremacy of the Church in temporal matters than the Protestant; their difference is *in regard to spiritual concerns*. The Protestant maintains the right of private judgment in matters of conscience; the *Catholic believes* that in spiritual affairs the decisions of the Church ought to overrule the individual judgment. But Protestants and Catholics, all Christian Churches and individuals believe that the allegiance which we owe to God is higher than any obligation to man; and that *in a conflict between human and Divine law, you must serve God rather than man.*"

Mr. Seward and other northern men have been often enough held up before the country as guilty of unpardonable atrocity in suggesting the idea of a "higher law." But we are not aware that the doctrine was ever stated anywhere in a more flat-footed manner than in the foregoing extract by the highly-conservative Senator from Virginia.

OLD WINE.—The Maine Law did not prevail at the dinner given by the city of London to the French Emperor and Empress. The *Times* says:

"The *dejeuner* and wines for the Emperor and suite as well as the general refreshments, were furnished by Messrs. Staples, of the Albion. The wines supplied to the *Imperial table* include the choicest hock, champagne, malvoisie, amontillado and sherry, 103 years old, of matchless quality. This latter wine was of peculiar interest, being part of a cask supplied at the enormous price of £600 per butt to his late Majesty Napoleon I."

THE DIRECT ROUTE TO PHILADELPHIA.—A gentleman who left Philadelphia on Monday morning at 6 o'clock, and arrived in this city in fifteen hours, by the Catawissa, Erie, and *Buffalo & New* York City Railroads, informs us that the Wilkesport train connected at one time-table, a Elmira, with the train which left New York also at 6 thus passengers from the two great cities came through together, reaching Buffalo at 9 o'clock. Our informant states that many Philadelphians, bound for Cleveland, were upon the train, and that facts favor the probability that the new route will soon supersede, in the preference of the citizens of that town, the route by Pittsburg. All expressed themselves delighted with the promptness, speed and comfort of the direct line.—[Buffalo Democracy.

☞ Georgiana H. Bate, (English woman,) arrived in this city lately, in search of a husband who left her 20 years ago. She claims John F. Bate, mahogany dealer in Hudson street, as "her man," while he denies all knowledge of Georgiana. He married Lore, and has a large family and plenty of means. Mrs. Bate, insists that she cannot be be mistaken, as she had him arrested in Canada about seven years ago for the same offence, and that it cost him a good round sum to get out of the scrape. She brings letters of recommendation from the Lord Mayor of London and other high functionaries.—[N. Y. Mirror.

DEATH OF WILLIAM SLOAN, ESQ.—The hopes which were entertained by the friends of this unfortunate gentleman, that he would recover from the effects of the dreadful accident which befell him on the 5th instant, have proved futile. Mr. Sloan expired on yesterday morning at 4 o'clock at the Lake House.

The deceased was a native of Haverhill, New Hampshire, but for a considerable period has resided in the west and been largely identified with its interests, and has *left many friends* to lament his loss.

His remains will be taken to Woodstock for interment. His age was about thirty-two years.—[Chicago Tribune, May 19.

A LAW-ABIDING CITY.—We do not claim that there is no violation of the Statute in respect to selling Intoxicating liquors, in Rochester; but what we do say is, that there is next to none.—and further that in respect to quiet, cheerful submission to the law, we are ahead of every other city in the State. This fact, which will not be disputed, is highly creditable to our citizens. It is no mean distinction to be first in regard to, and obedience to the law of the land.—[Rochester American, May 17.

ANOTHER FLEET.—St. Paul awoke yesterday morning to find one of the largest fleets of the season at her levee. Since Saturday evening, the Galena, Golden Era, and Minnesota Belle have arrived from Galena, and the Regulator, Ben West, Navigator and New St. Paul from St. Louis.

The Navigator brought up a very large freight for St. Paul and ports on the St. Croix.—[Minnesotian, May 15.

GOING WEST.—On Friday last, four trains of covered wagons, filled with household furniture, such as children, &c., while their parents were busy in driving droves of cattle, sheep and hogs, passed bound for the North-West.—[Madison Patriot.

TRAVEL INCREASING.—For the last three days we have heavily laden coaches, with about the same number of Expresses and extras, have left this City for Fond du Lac, each day. Every boat leaves a large freight, and a crowd of passengers at our wharves.—[Times (Sheboygan,) May 19.

CITY MATTERS.

CIRCUIT COURT.—May 21.

JUDGE HUBBELL, PRESIDING.

The jury in the case of the State of Wisconsin vs. Valter H., Blake, George Santee and Samuel McPherson, for Burglary with intent to steal and commit murder at the Ten Mile House on the 7th April, brought in their verdict on Sunday at 1 P. M., after being out 18 hours; the verdict being that the whole of the defendants were "*guilty* in the manner and form as charged in the indictment."

Yesterday application was made for a new trial for George Santee on the ground that an alibi can be proved—that the defendant was in Keokuha at the time the affair took place—the Court took time to consider the application.

The Court then proceeded to the decision of several motions of some days standing; when the trial of Simon Adler, for obtaining from William J. Hall & Co., of the Exchange Bank, $760 by false pretences on the 20th of February last, was called on and commenced.

The Jury found the defendant guilty.

The case of the State vs. Hardtke, for forging the name Bill of Exchange upon which Adler fraudulently obtained the money, was then commenced, but was not finished at the time of going to press.

POLICE COURT.—May 21.

BEFORE CLINTON WALWORTH, ESQ., POLICE JUSTICE.

A man named Charles J. Hildel was tried for an assault and battery upon Alex. Anderson on the 21st May, found guilty, and fined $10,00 and costs, amounting in all to $16,40—the costs and fine were paid.

MADAM JACOBI'S CONCERT.—The Concert given on Friday evening, at Young's Hall, by Madam JACOBI, assisted by several amateurs and the members of the Musical Society, though not as fully attended as it deserved to be, afforded a rich treat to those present. Madam JACOBI herself sung two *difficult* pieces in admirable style, and with a facility of execution and excellent taste that showed how thorough had been her instruction in the best Italian schools. This lady, who has resided in our city since last fall, is dependent for a livelihood upon her success as a Teacher of Music. As yet, she has obtained but *few scholars and is* most anxious to add to the number. She is so thorough a proficient in the elegant accomplishment which she proposes to teach that we can with entire confidence recommend her to the public as in all respects deserving of patronage.

Promenade Concert.

MR. OTTO RUFFUS will give the first of his *proposed series* of Promenade Concerts at Young's Hall this evening, and has sent invitations to a large number of our leading citizens to attend he same and judge for themselves of the quality of the entertainment offered. The hall will be tastefully arranged for the occasion, and extraordinary pains have been taken to render the Concert successful. We can assure all who attend, that they will hear some delightful music and will be prepared to wish MR. RUFFUS entire success in his novel and attractive enterprise. The Concert will commence at 8 o'clock.

FRONT AT THE PIER AND ON THE TRAVELLER.—A row took place on the Pier and on the steamer Traveller, on Sunday afternoon. As near as we could ascertain, the facts were these:—A German attempted to obtain some packages from the boat without having previously paid the freight. He was prevented and went ashore, where he was told to stay. He went aboard the boat again—was ordered ashore, and refusing to go, the officers of the boat were in the act of putting him ashore when he resisted. At this time constable Ryan jumped on board the boat and interfered, and in the melee was struck and kicked several times and dragged ashore. After getting ashore he commenced to threaten that if he had "brickbats enough he'd smash the old boat to pieces." These are the statements made to us by several men who witnessed the trouble. We were not present ourselves.

THE CIRCUS.—A fine band, drawn by six horses of as many colors as Joseph's coat of old, drew admiring crowds of youngsters as it passed through the *streets yesterday morning*. Fathers and Mothers were besieged and teased till the necessary quarters were forthcoming, and many a pair of black eyes snapped when the *funds* made their appearance. Hosts of children of larger and smaller growth were on hand in the afternoon to see whether the doings came up to the "sounding tenor of the manifesto," as Webster said of the S. Carolina nullifiers. An enthusiastic individual who was present assures us that, Lowell the lecturer to the contrary notwithstanding, *dictionary* words are quite inadequate to do justice to the performances, and that the advertisement is quite mild in comparison to the great doings to be reported on *Spring* Street to-day.

ARREST OF THE LAST NEGRO OF THE TEN MILE HOUSE.—Jacob Griffin, the fourth of the men engaged in the murderous assault upon the family of Mr. Smith on the 7th of last April, was arrested at Port Washington on Sunday, and brought to this city yesterday morning by under sheriff Parsons. This man was indicted with the three who have just been tried and convicted for the affray, but not being in custody the other three were put on trial without him. There is not much prospect of a trial for Griffin at this term of court.

RAIN.—Our city was visited by a fine shower, yesterday morning, attended with thunder and lightning. The rain fell gently for an hour or two, and being followed by a warm, bright sunshine, gave a fine start to the gardens and shrubbery about town. A few more of the same sort of showers would be highly acceptable to the farmers.

CATALOGUES OF Y. M. A. LIBRARY.—By the advertisement of the Librarian of the Young Men's Association, it will be seen that we were too fast in noticing the whereabouts of the Catalogues the other day, and that the last edition, and only "genuine old Dr. Townsend" are to be had at the Rooms of the *Association*.

BELOIT AND MILWAUKEE RAILROAD.—A notice from the Commissioners of this road will be found in our advertising columns. We have already taken occasion to commend the enterprise to the favorable notice of our citizens and are glad to see that steps are about to be taken to bring it more prominently before the public.

POST-MORTEM LORE.—A laboring man lost on Saturday afternoon, in going from Second st., through Spring and East water st, to Rooney's Auction Room or else at the latter place, a green leather port-monnais, bound with brass, containing about $15,00. The owner is poor, and has been maimed lately so as to be unable to work, and needs the money. We trust that the finder will return it to him. It may be left at this office.

FOR SAULT ST. MARIE.—The steamer *Superior* will leave Dousman's dock to-morrow morning for Sault St. Marie, stopping at Manitowoc, Two Rivers, and all the intermediate ports. For passage apply to J. GRIFFIN, three doors from American Express Company's office, on Huron street.

FOR BUFFALO.—The propeller *Niagara* will leave for Buffalo to-morrow morning. For passage apply to J. GRIFFIN on Huron street, three doors from the American Express Company's office.

CHANGE OF BOATS.—Hereafter the boats of Clemens Line running between this port and Chicago, will be changed. The steamers *Arctic* and *Traveller* running on the night line, and the *Pacific* and *Cleveland* on the day line.

SOUTH PIER.—The work of repairing the damages received by the South Pier during last winter is nearly completed, and boats will be able to land and take goods there by the last of this week.

THE GREEN BAY STONE.—We mentioned some time since that some specimens of lithographic and building stone from the quarry recently opened at the north end of the peninsula which bounds *Green Bay* on the east, were expected here. Mr. G. H. WOOD, the owner of the quarry, arrived yesterday, and brought several samples, which are in the stone cutter's hands, and may be seen after this noon, at the Hardware Store of J. COLGATE. 111 East Water st., and will be found of very superior quality. A piece of the lithographic stone, taken from the surface, and of course not equal to what may be found below, was faced, and tested by H. SNEIDER, Lithographer, of this city, and is pronounced by him to be fully equal to the second quality of German stone, of which a great deal is imported into this country.

HON. AMOS TUCK.—The gentleman, one of the tried and true representatives of the freemen of the old Granite State in Congress, is in town at the Walker House.

☞ The steamer *Pacific* arrived from Chicago yesterday afternoon, with upwards of 300 passengers and about ten tons of freight and twenty-five horses.

DAMAGED GOODS.—ROONEY closes to-day the sale of the fine goods, damaged, which he has had under the hammer for some days past.

DAMAGED GOODS.—The sale of damaged goods by the *Niagara*, made by WALL yesterday, realized very good prices, a large portion of the articles being but slightly damaged, and that by water only.

THE COLLINGWOOD LINE.—The steamer *Queen City* of this line, was in port yesterday taking on a large lot of flour and provisions for Montreal and Ogdensburg, *via*, the Ontario and Simcoe R. R. She cleared last evening for Collingwood.—Quite a number of passengers came down from Chicago by the Lake Shore R. R. to take passage in her for the east.

PROF. FOREST CITY.—This lucky *craft* came in yesterday, from Buffalo, and landed at Dousman & Co's., about 150 tons merchandize, being the first goods through by the Erie Canal. She runs in the People's Line.

PROP. SOLOTA.—The *Solota*, one of the five of the American Transportation Co's. Line which terminate their route at this port, has taken on a large cargo of flour and provisions, and clears immediately.

TO BE RECONSTRUCTED.—According to the Washington correspondent of the New York Enquirer, the Know Nothing Order, immediately after the Virginia election, is to be reconstructed, and the secrecy and oaths abolished. The same writer anticipates an open National Convention in November.

FROM THE SAUT.—The steamer Illinois, Capt. Wilson, arrived from the Saut yesterday. She brought down 299 bbls. copper from the Minnesota mine; 362 bbls. and 15 masses from the Isle Royale mine, (in all 214 tons) 100 bbls fish and 66 passengers. The *Illinois* lays over at this port until 9 o'clock this afternoon, and then leaves again for the Saut. She brings intelligence that the leak in the Canal was being repaired as fast as possible, but the water would not probably be let in until the middle of next week. The passage of the Illinois through the *Canal and to ports on Lake Superior*, will therefore, necessarily be deferred until her next trip.—[Det. Free Press, Saturday.

FIRST RAFT THIS SEASON.—A raft of nearly three thousand logs from the Wolf River Pineries, arrived here yesterday afternoon for Martin Kellogg & Co., and will be followed by others in quick succession. The arrival was very opportune, the *mills* having been under a short allowance for the past few days.—[Horicon Argus.

NATIONAL LOAN FUND
LIFE ASSURANCE SOCIETY,
LONDON.

CAPITAL, - - - - $2,500,000.
Guarantee Fund, $100,000, Deposited with the Comptroller of the State of New York.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether Life Assurances desirable or not, and at what Office this desirable assurance is to be effected.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it is in no way interfered with, or undervalues those important considerations, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than worldly property.

While the representative of a family lives, (although, though he may have more than property, he becomes absolutely such,) he supports his family; but at his death, desolate and destitute often part, unless he has saved them from such a contingency as his life, which may be done by the payment of a small annual premium, the payment of which does not then subject him to worldly inconvenience.

In paying the annual payment will be slight, and if none of such proofs, the policy will be constantly growing more valuable although no premium is not increased.

Clergymen and others who have a stated and regular income, should insure, well knowing that, at their death their families may be left destitute.

Men engaged in mercantile or manufacturing pursuits over-trading and in heart-breaking circumstances, should insure.

The Borrower who has a life mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off the debt by some of his death.

Oswego, May 21.

The Canadian steamer Huron, loaded with 4000 bbls flour for Montreal, when leaving our Harbor on Saturday night ran against the Island at the entrance, filled and sunk to the main deck Cargo will be mostly saved in a damaged state.

Steamers running between here and Toronto are nearly all loaded with passengers and freight.

Boston, May 21.

Gov. Gardner has vetoed the personal liberty bill. Gov. Gardner's veto of the bill was sanctioned by a communication from the Attorney General, pronouncing the bill unconstitutional.

The Senate has sustained the bill by a vote over the veto, by 32 yeas and 3 nays, and the House by 8 to 1. (So it is a law)

The Jury in the case of Dr. Brown against the *New Haven* R. R. Co., have returned a verdict for Plaintiff in $16,000. Dr. B. was injured at Norwalk and sued for $20,000

Col. Kinney—Commerce of New York—Liquor and Anti-Liquor Meetings in Boston.

Philadelphia, May 21

The case of Col. KINNEY came up before Judge Kane this morning Mr. Dallas argued for a reduction of the bail and a speedy trial. He read a number of affidavits for his client, one from the owner of the steamship United States testifying that no armament or powder had been placed on board or intended to be, the expedition being one for colonization only He states that the steamer has been ready for sea since the 9th inst., and the delay renders Kinney liable for $12 per day, damages. Mr. Dallas also submitted an account of the hearing in New York, and closed by repeating his demand for an early trial. The case was then interrupted by the calling of the jurors for the regular term of the Court, but will be resumed about 4 P. M.

New York, May 21

The imports into this port during the present week reached $24,852 277 in value, which, for the first time in a considerable period, is in excess of the same period last year, dry goods included. However there is a slight falling off on 1854.

Washington, May 21

The Court of Claims is now ready to receive cases from claimants; none, however, to be docketed before July 12th, nor acted upon until October.

Boston, May 21.

Considerable amusement was excited today, by different handbills posted in all parts of the city, one calling on the *friends of constitutional* rights and personal liberty, to assemble in Faneuil Hall this evening, and a second similar calling upon the friends of riot, rum and pauper sin. It is thought that the demonstration will fall through on the part of the liquors dealers

WESTWARD.—Quite an unusual spectacle was witnessed yesterday afternoon in Clark street, reminding the older citizens of days long gone by. Three covered wagons, each drawn by two yoke of oxen, moved quietly towards the north. The wagons contained the effects, goods and chattels of three families who were on their way to Crawford Co., Wisconsin. Behind the wagons were two *men* and two buxom lasses driving a drove of cows on to their western home.—[Chicago Democratic Press, yesterday.

Destructive Fire at Watertown.

At 12 o'clock on Saturday night the foundry and machine shop, known as the Vulcan Iron Works, and owned by J. S. Butcher & Co. was discovered to be in flames and already beyond the feeble powers of the citizens to save it from the *devouring elements* The building and most of its valuable contents were destroyed—The origin of the fire is not known The loss to the Co., cannot be less than $4000 to $5000, beside the suspension of business, which we are happy to learn will be but a short time in every branch of the business which was carried on; and but one day's suspension in turning and finishing *up castings for machinery*, some of their stock having been saved. Insured for $1000 only, and that in the new Milwaukee company, the "Home Mutual," covering but a *small portion* of the loss.

It is thought by many that the fire was the work of an incendiary. All fires had been extinguished before 6 o'clock, and Mr. Dutch rambled *through every part* of the building between 10 and 11, at which time everything was known to be safe. In about an hour and a half the building was enveloped in flames.

The adjoining buildings, Mr. Salsich's and and blind factory, and Parkhurst, Knapp & Co's. fork and hoe factory, were in the most imminent danger, and but for the noble exertions of the citizens in removing combustibles, carrying and throwing water, &c must have been entirely consumed. Two other small buildings in front were on fire—on partly consumed—but were extinguished.

J. M. Bryant and several others lost their joiner tools, amounting in value to from $100 to $200 each.

Mr. Bryant's loss must have been considerable—several hundred dollars—as his joiner shop was in the second story, of the main building destroyed.—[Watertown Chronicle Extra.

FIRE.—A fire has been raging for several days in the woods west of the Village and has destroyed a great deal of property. On Friday it was commenced blowing from the west and he are was filled with smoke and cinders, cover ng the village like a funeral pall.

The flames were driven before the wind, and quantities of cord-wood, bark, Shingle bolts, &c., were consumed, together with five or six stables in the outskirts of the town.

The extensive Tannery of Lewis Sherman was saved from destruction, by the strenuous exertions of the citizens and the Fire Department.—[Manitowoc Tribune.

NATIONAL LOAN FUND
LIFE ASSURANCE SOCIETY,
LONDON.

CAPITAL, - - - $2,500,000.
Guarantee Fund, $100,000, Deposited with the Comptroller of the State of New York.

The advantages offered by this Company are many, and the public are invited to call upon the Agent and make themselves acquainted with the System adopted by the Company, when they will be better able to decide whether the investments desirable or not, and at what Office it is desired assurance for.

The many reasons why Fire and Marine Insurance should be adopted, are incontrovertible; and Life Insurance, while it in no way interferes with, or undervalues those important institutions, has claims which no other system of insurance can have. Human existence must on consideration, enjoy a much higher estimation than ordinarily prevails.

While the representative of a family lives, (although, through misfortune, it leaves his property, but to a bankrupt,) the support is his family; but at his death, decided there cannot be any part, unless he has saved them from want by assurance on his life, which may be done by the payment of a small annual premium, the payments of which need then added to a very wealthy connection during life.

If among the annual payments will be light, and if insurance against premature poverty will be constantly growing more valuable although its premium is not increased.

Clergymen and others who have a stated and regular income, should insure, well knowing that, at their death their families may be left destitute.

Men engaged in more active occupations, such as manufacturing pursuits, ocean voyages, and in hazardous, should insure.

The Mortgagor who has stable mortgage on his farm, should insure, at least to the extent of it, thereby enabling his family to pay off it on the early sale of his death.

Lake Disaster—The Collingwood Line—Gov. Gardner Vetoed.

Oswego, May 21.

The Canadian steamer Huron, loaded with 4000 bbls flour for Montreal, when leaving our Harbor on Saturday night ran against the Island at the entrance, filled and sunk to the main deck Cargo will be mostly saved in a damaged state.

Steamers running between here and Toronto are nearly all loaded with passengers and freight.

Boston, May 21.

Gov. Gardner has vetoed the personal liberty bill. Gov. Gardner's veto of the bill was sanctioned by a communication from the Attorney General, pronouncing the bill unconstitutional.
The Senate has sustained the bill by a vote over the veto, by 32 years and 3 nays, and the House by 8 to 1. (So it is a law)

The Jury in the case of Dr. Brown against the New Haven R. R. Co., have returned a verdict for Plaintiff in $16,000. Dr. B. was injured at Norwalk and sued for $20,000

Col. Kinney—Commerce of New York—Liquor and Anti-Liquor Meetings at Boston.

Philadelphia, May 21

The case of Col. KINNEY came up before Judge Kane this morning Mr. Dallas argued for a reduction of the bail and a speedy trial. He read a number of affidavits for his client, one from the owner of the steamship United States testifying that no armament or powder had been placed on board or intended to be, the expedition being one for colonization only He states that the steamer has been ready for sea since the 7th inst., and the delay renders Kinney liable for $12 per day, damages. Mr. Dallas also submitted an account of the hearing in New York, and closed by repeating his demand for an early trial. The case was then interrupted by the calling of the jurors for the regular term of the Court, but will be resumed about 4 P. M.

New York, May 21

The imports into this port during the present week reached $24,852 277 in value, which for the first time in a considerable period, is in excess of the same period last year, dry goods included. However there is a slight falling off on 1854.

Washington, May 21

The Court of Claims is now ready to receive cases from claimants; none, however, to be decided before July 12th, nor acted upon until October.

Boston, May 21.

Considerable amusement was excited to-day, by different handbills posted in all parts of the city, one calling on the *friends of constitutional* rights and personal liberty, to assemble in Faneuil Hall this evening, and a second similar calling upon the friends of riot, rum and pauper ism. It is thought that the demonstration will fall through on the part of the liquors dealers

Westward.—Quite an unusual spectacle was witnessed yesterday afternoon in Clark street, reminding the older citizens of days long gone by. Three covered wagons, each drawn by two yoke of oxen, moved quietly towards the north side The wagons contained the effects, goods and chattels of three families who were on their way to Crawford Co., Wisconsin. Behind the wagons were two men and two buxom lasses driving a drove of cows on to their western home.—Chicago Democratic Press, yesterday.

Destructive Fire at Watertown.

At 12 o'clock on Saturday night the foundry and machine shop, known as the Vulcan Iron Works, and owned by J. S. Dutcher & Co. was discovered to be in flames, and already be-yond the feeble powers of the citizens to save it from the *devouring elements* The buildings and most of its valuable contents were destroyed.—The origin of the fire is not known The loss to the Co., cannot be less than $4000 to $5000, beside the suspension of business, which we are happy to learn will be but a short time in every branch of the business which was carried on, and but one day's suspension in turning and finishing up castings for machinery, some of their ashes having been saved. Insured for $1000 only, and that in the new Milwaukee company, the "Home Mutual," covering but a small portion of the loss.

It is thought by many that the fire was the work of an incendiary. All fires had been extinguished before 6 o'clock, and Mr. Dutch rwas through every part of the building between 10 and 11, at which time everything was known to be safe. In about an hour and a half the building was enveloped in flames.

The adjoining buildings, Mr. Salsich' sash and blind factory, and Parkhurst, Knapp & Co's. fork and hoe factory, were in the most imminent danger, and but for the noble exertions of the citizens in removing combustibles, carrying and throwing water, &c. must have been entirely consumed. Two other small buildings in front were on fire—on partly consumed—but were extinguished.

J. M. Bryant, and several others lost their joiner tools, amounting in value to from $100 to $200 each.

Mr. Bryant's loss must have been considerable—several hundred dollars—as his other shops was in the second story of the main building destroyed.—[Watertown Cronicle Extra.

Fire.—A fire has been raging for several days in the woods west of the Village and has destroyed a great deal of property. On Friday it commenced blowing from the west and the air was filled with smoke and cinders, covering the village like a funeral pall.

The flames were driven before the wind, and quantities of cordwood, bark, shingle bolts, &c., were consumed, together with five or six stables in the outskirts of the town.

The extensive Tannery of Lewis Sherman was saved from destruction, by the strenuous exertions of the citizens and the Fire Department.—[Manitowoc Tribune.

DR. J. B. R. CHRISTIAN'S

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Mortal

IT STANDS PRE-eminent for its curative powers in all the diseases for which it is justly recommended namely called

Bronchi Complaints.

Of these are Prostration Dyzzi, or Falling of the Womb; Fluor Albus, or Whites; Chronic Inflammation and Ulceration of the Womb; Hemorrhage or Flooding; Painful, Suppressed and Irregular Menstruation, &c., with it their spontaneous parting with, (Cause's accepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in better condition

I have no hesitation in saying Dr Mauchan's Uterine Catholicon is the best one in uterine diseases generally I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty

JOHN C. OERTEL, M. D.,

Baltimore, Md

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one is not doubting will help

Truly Yours,

WM. LAIRD HASLETT, M.D.,

New Philadelphia, Ohio

July 6th, 1854

I must say, from my own experience and personal observations in my practice, it has proved to be the best and surest remedy for the difficulties for which it is recommended, viz: Diseases of the Uterus, Fluor Albus, Prolapsus Uteri, Fluor Albus, and all irregular and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.,

Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing certificates from hundreds of good responsible persons, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak highly of its operations.

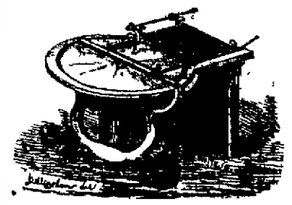
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this Mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives the speed of revolution; and the flexibility of the shingle width wise between the saws, so that they may be ground thin on its edge, be set so far away but little of the wood

This shingle saw made with this mill will in this market seventy-five cents per thousand higher than any other sawed shingles.

The mill is made entirely of iron—strong, simple and of a look workmanship, easily worked, and not liable to get out of order

QUEEN'S PATENT

PORTABLE

FORGE

AND

BELLOWS!

THIS FORGE can be set where most convenient for light and room, and the smoke conducted to the Chimney by a Pipe

There are six sizes of Blacksmiths, Coppersmiths, &c Forges, and five sizes of Jewelers, Dentists and Chemists

It is compact—the Twiser Iron is of superior construction—heats the iron in the quickest manner—the wind escapes from the tuir air chamber through several holes in the Twiser cap, which being under the fire, prevents the Twiser from getting filled up with coal and ashes, as it will where there is but one opening. For out-door work and for safety in doors, this Forge has great advantages over others, having two Slides, by which the Forge can be closed by shut up, and for safety and many purposes in-doors, particularly for Jewelers, Dentists and Chemists

For safety in doors, Dentists and for chemical operations it all the fumes from chemicals and acids being conducted through the smoke-pipe, or when operating are entirely out of the way; it is also so constructed that fire or water cannot injure the Bellows, which is in the cylinder under the fire bed

It is the best Forge for Contractors on Railroads, Public Works, (for making repairs on the same), and for emigration to new countries, ever offered to the public, and are successfully used by most of the steamers, and also by the U. S. Army and Navy For sale by

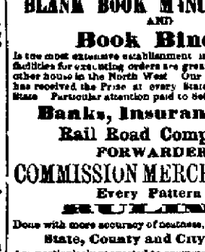
DR. J. B. M. CHISI'AMO

CELEBRATED CATHOLICON,

For the Relief and Cure of Suffering Humanity



IT STANDS FREE without for its curative powers in all the diseases for which it is recommended usually ascribed

Female Complaints.

Of these are Prolapsus Uteri, or Falling of the Womb; Fluor Albus, or Whites—Chronic Inflammation and Ulceration of the Womb. Incontinence, Retention, or Flooding. Painful, Suppressed and Irregular Menstruation, &c. In all Nervous affections, (Cases excepted,) no matter how severe or how long standing.

The Catholicon far surpasses other remedies, in being less nauseous, less expensive, and leaving the system in better condition

I have no hesitation in saying Dr Marchisi's Uterine Catholicon is invaluable in uterine diseases generally I have used it in Fluor Albus, Amenorrhœa, Prolapsus Uteri, and in cases of extensive ulceration of the vagina and os uteri. It is worthy of the notice of the Faculty

JOHN C. OERICK, M. D.,

Professor of Obstetrics, Baltimore, Md

The Catholicon is doing good service here. All the patients that have tried the medicine have been benefited but one—and that one nothing will help

Truly Yours,

WM. LAIRD HASLETT, M.D.,

July 6th, 1854 New Philadelphia, Ohio

I must say, from my own experience and personal observations in my practice, it is one of the best and most extract remedy for the difficulties for which it is recommended, viz: that of female weakness, such as Prolapsus Uteri, Fluor Albus, and all irregularity and painful menstruation, and diseases of irritation of the female organs.

D. Y. FOOTE, M. D.,

Syracuse, N. Y.

Those needing such a remedy should inquire into the merits of this medicine, and by calling at the store of the undersigned can obtain a pamphlet (free) containing ample proof, from the most responsable sources, of the benefits it confers. Let us test together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

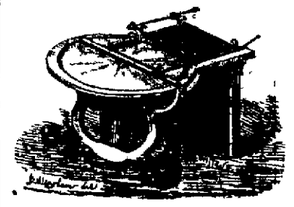
EVARTS' Patent Shingle Mill.



EVARTS & BUTLER,

PROPRIETORS AND MANUFACTURERS,

CHICAGO, ILLINOIS.

THE SMOOTHNESS OF THE WORK WHICH GIVES this mill its superiority, is produced by making the cut in the direction of the fibre of the wood.

The ease with which wood is worked in that direction gives a speed of execution; and the flexibility of the shingle which arises therefrom, so that it may be rounded thin on the edge, is not to cut away but little of the wood.

The shingles now made with this mill sell in this market necessarily *six cents per thousand higher* than any other sawed shingles.

This mill is made entirely of iron—strong, simple and of a workmanship, easily worked, and not liable to get out of order.

Lots in Sherman's Addition

FOR SALE.

THE FOLLOWING LOTS IN SHERMAN'S ADDITION, for sale. The titles to all these Lots are good. The difficulty concerning the title of said Additions has been removed by a decision of the United States Court; therefore there will be no more question about the title.

Now for another. A more beautiful prospect can not be found than Sherman's Addition. Those having a full view of the City and Lake; for health it is not to be surpassed; the soil is rich, and I see no reason why property in Sherman's Addition should not increase as good property has in the First Ward, and it will if only a few individuals will commence and build for themselves. I do see all will say present premises, and would agree to build in Sherman's Addition, Second Ward.

The foregoing Lots are sold to close up the estate of our late friend Ebenezer.
